## **AUTHOR'S REMARK**

The present English edition of the German original: *Grundlagen der Gruppoid- und Gruppentheorie* (1960) differs from the latter only by some insignificant details in which it conforms to the Czech edition (1962).

Since the original work contains a number of new concepts for which adequate English terms had be found, the translation was not easy and I wish to thank Dr. M. BORŮVKOVÁ for the care with which she treated it. I also take this opportunity to thank Mrs. O. FIALOVÁ for invaluable technical help in preparing the manuscript and, last but not least, to the VEB Deutscher Verlag der Wissenschaften who have offered to publish an English translation of my work. It is the friendly help due to their indefatigable endeavour to foster further development of mathematical sciences which led to the final result.

Brno, April 1972

O. BORŮVKA
