FOREWORD

This volume contains some of the papers presented at the 11th Winter School on Abstract Analysis held from January 16 to January 30, 1983, in hotel "Javor" in Železná Ruda (Bohemian Forest), submitted for publication before July 20, 1983. A number of brilliant lectures is not recorded here. The full responsibility for the contents of the papers was left to the authors.

It is a pleasure to acknowledge my indebtedness to the Mathematical Institute of Czechoslovak Academy of Sciences for organizing the Winter School, to the Faculty of Mathematics and Physics of the Charles University for the helpful cooperation, and to Circolo Matematico di Palermo for publishing this volume.

I am particularly obliged to the secretaries of the organizing committee, Jan Pelant, Jiří Tůma and Miloš Zahradník, and to Benedetto Bongiorno.
