ON GENERATION OF TORSION THEORIES: A CORRECTION

Pavel JAMBOR, Praha

In my recent paper of the title (Comment.Math.Univ. Carolinae 13(1972),79-97) a few errors have occurred. A prospective reader is requested to make the following alternations:

In the proposition 2.4, change  $\epsilon$ -injective envelopes for weak- $\epsilon$ -injective envelopes; in the proposition 3.3, replace  $\mathbb{T}_{max}$  by  $\mathbb{D}$  in the formula for  $\tilde{S}_{\epsilon_w}$  and in the corollaries 3.5, and 3.6, the subset  $W$  should be finite.
