Notices and instructions for the authors

The Zpravodaj of the Czechoslovak T_EX Users Group is a scientific journal of the Czechoslovak T_EX Users Group publishing original and reviewed articles written in Czech, Slovak and English. The journal is published quarterly under ISSN 1211-6661 (printed version) since 1991 and under ISSN 1213-8185 (online version) since 1997.

Journal Profile: Zpravodaj of the Czechoslovak T_EX Users Group is focused on the questions and progress of the typographic system T_EX and its implementations and successors (L^AT_EX, pdfT_EX, X_YT_EX, LuaT_EX aj.), it is related to and supports software, and deals also with the typography, text-processing, typesetting and related topics. It aims to support the utilisation of the system, especially among Czech and Slovak users.

The Zpravodaj of the ČS_TUG seeks to share new knowledge, processes and methods. The journal publishes original works, project solutions, reviews and educational papers are published.

Four issues per year provide a forum for distinguished as well as young authors from within the the Czechoslovak T_EX Users Group. There is also scope for contributions from others outside the society. In 2009, *Zpravodaj of the Czechoslovak T_EX Users Group* was included in the Research and Development Council in their list of Czech peer-reviewed non-impact factor journals as a review journal eligible for the assessment of research in the Czech Republic, see <http://www.vyzkum.cz/>.

A shortened thesis as well as the final reports of projects supported by grant agencies are accepted for publishing. A paper in the Zpravodaj of the Czechoslovak T_EX Users Group is accepted by the National Reference Frame of Excellence of the Czech Republic (NRRE) if a corresponding theme is submitted.

Instructions for authors: *The Zpravodaj of the Czechoslovak T_EX Users Group* publishes three types of articles: theoretical papers, research and project papers and review, topics, e.g. news conferences, reports and book reviews, are also accepted.

Papers are welcomed in the Czech, Slovak or English languages. The articles should have the following structure: introduction, state-of-the-arts, methods, results and interpretations, discussion and a conclusion. Authors can be diverse due to the concept of their work.

The following details are required before an article is included. The title, an abstract of maximum 1,200 characters with key words in Czech/Slovak and

English are required. The author's first and last name, electronic mail and postal address, a list and the references used in the paper. The English titles for references must be included. Any missing parts may be added by the editorial board. A summary in English (approx. 2 pages) in wider original papers is recommended.

Papers or projects supported by grant agencies, e.g., the Grant Agency of the Czech Republic, the European Social Fund, the Interior Grant Agency of the Czechoslovak T_EX Users Group, university interior grant agencies, etc., have to contain information about the agency, number and name of a corresponding project.

Prior to publication, all papers (excluding news and reports etc.) are judged by the editors and peer-reviewed by two anonymous experts. The journal accepts previously unpublished papers only. An anonymous review is arranged by the editorial board. The reviewers should be from a college or university other than the author's. The editorial board has the right to refuse publication of an article.

Other papers e.g. news, conferences, reports and book reviews are judged by the editorial board.

The editorial board manages language proof-reading. Submitted manuscripts may be edited from the language or from a formal stand-point.

Editorial board:

Ing. Zdeněk Wagner, CSc., Editor-in-chief

The Institute of Chemical Process Fundamentals of the Academy of Sciences of the Czech Republic, v. v. i.

RNDr. Ján Buša, CSc., Technical University Košice, Slovakia

Assoc. prof. RNDr. Jiří Demel, CSc., Czech Technical University
